

# Leanne Law - Sweet Treats Salon

*"I think that when you are happy and content with what you are doing everyday, that is success."*

Since having a manicure in a local salon at the age of 16, Leanne Law has had a passion for 'all things nails.' Fascinated by the product chemistry and nail anatomy, she started working part-time in a beauty supplies shop during her business management degree, and spent the rest of her time learning her craft. After practising and perfecting her technique on friends and family, Leanne became self-employed and started offering her nail services from home.

Her glowing reputation quickly spread through word of mouth and she found herself becoming increasingly busy, so when she spotted an opportunity to open a salon of her own she jumped at the chance. Leanne quickly rented the vacant space she had found and launched Sweet Treats Salon, a relaxed and friendly boutique which offers 'guilt -free grooming to go.' The salon specialises in the promotion, maintenance and enhancement of natural beauty, and offers a comprehensive range of aesthetic treatments.

Since the salon's inception, Leanne has established a full team of beauty therapists and built an impressive portfolio. She is now working with some of the industry's leading beauty brands, including Dermalogica, CND nails, Shellac nails, Minx nails and HD Brows. However Leanne's love of beauty extends further than Sweet Treats Salon. She has also established Creative Academy Inverness, an educational service which offers product-specific training to other beauty enthusiasts. From beginner to advanced level, Leanne has something to offer every would-be beauty therapist or accomplished nail technician.
